

LOCAL HERBS

Herbs Grown To Order

For questions or to place an order: Email info@localherbs.

Notes to Practitioners: The production of Asian medicinal plants is new to North America, although many of these species have been growing here for hundreds of years. We expect to partner with you in assessing the quality of these herbs. We do not carry an inventory. Herbs are harvested usually in autumn. We email availability and price lists to customers beginning in autumn, updated periodically through the winter.

Sales are restricted to licensed practitioners of Oriental Medicine; customers must send a copy of their license with the first order. Orders are processed first-come, first-served. It's to your advantage to have an order on file with us even though the herbs may not be available for a year or two.

Terms: Details of availability, quantities, processing, preparation and price will be confirmed prior to invoicing. Payment in advance is required, following confirmation of order details. All material is identified by the farm where it is grown with appropriate descriptions and certifications.

<i>Pinyin</i>	<i>Genus</i>	<i>Species</i>	<i>Part</i>	<i>Family</i>	<i>Avail.</i>
ai yè	Artemisia	argyi	herb	Asteraceae	
ai yè	Artemisia	vulgaris	herb	Asteraceae	
bái guǒ	Ginkgo	biloba	fruit	Ginkgoaceae	
bǎi hé	Lilium	lancifolium	bulb	Liliaceae
